Honda Navigation System
Instruction Guide / Yellow USB Update
MAP UPDATE INSTRUCTIONS

IMPORTANT: Read these instructions in their entirety before you begin updating the navigation system.

- Park your vehicle outside in a safe, well-ventilated place. Do not start the update while driving.
- Engine must be running to prevent the battery from discharging during the update.
  Note: Loss of power during the update can cause navigation system damage.
- Do not drive your vehicle at any time during the update.
- The navigation function is not useable during the map update.
- The navigation system can’t go back to the previous version after the map update.

Preparation

- Before starting the update, make sure you have the password that came with the map update.
- Locate the USB interface required for the Navigation Map Update.
  - **Civic & Fit vehicles:** The USB interface is located in the lower portion of the center stack area under the Audio System.
  - **CR-V & Insight vehicles:** The USB interface is located inside the Center Console (Armrest).
  - **CR-Z vehicles:** The USB interface is located inside the Glove Box.

United States: 1-888-291-4675 or www.hondanavi.com
Installation

#1

- Start the engine and let the navigation system boot up.

#2

- The following Confirmation screen appears. Select **OK**.

![Confirmation Screen]

- This system provides route information to help you reach your destination. Due to road conditions some recommendations may not be appropriate. Always obey all traffic laws and exercise your own good judgment. For safety, program the system when the vehicle is stopped. See your Owner’s Manual for complete instructions.

#3

- Be sure you are on a map screen, then insert the USB device into the USB port.

**Note:** Once you connect the USB device, don’t remove it or turn off the engine.

For detailed map coverage information please contact the Honda Navigation Center:
Canada: 1-866-353-9655 or www.hondanavi.ca
#4
- When the following screen appears, select **Continue** on the touch screen.

![Update system information](image)

#8

- The navigation system will automatically reboot and start the map update process.

For detailed map coverage information please contact the Honda Navigation Center: Canada: 1-866-353-9655 or www.hondanavi.ca
The following Notification screen appears. The Map update takes 15-20 minutes to complete.

The map update is complete when the following Notification screen appears. Remove the USB device first, and then reinstall the USB adaptor in it’s holder.

Select OK on the touch screen.
The following Notice screen appears. Select OK on the touch screen.

*Note: With this update, the Notice screen shown below replaces the prior Confirmation screen. This screen will only appear for about 5 seconds, then change to the map screen regardless if OK is selected.*

The driver is responsible for the safe operation of this vehicle. Use this system only when traffic conditions permit. For further details see your owner’s manual.

#13

The map screen then appears.
